

SN. 10/090,303

ATTORNEY DOCKET NO. YAMA:039

IN THE CLAIMS

*The status of the claims as presently amended is as follows:*

1. (*Currently Amended*) A musical performance data search system for an automatic musical accompaniment apparatus, comprising:

a first storage unit for storing a plurality of first ~~data sets including records~~, which include performance data for automatic accompaniment of the automatic musical accompaniment apparatus;

a second storage unit for storing a second ~~data set record~~ relateding to one of the first ~~data set records~~, the second ~~data set record~~ including information for searching the first ~~data set record~~ relating to the second record;

a designating unit for designating the second ~~data set record~~;

an editing unit for editing and updating the second data set record designated by said designating unit, wherein the second record is overwritten with edited content; and

a reading unit for reading the first ~~data set record~~ relateding to the second ~~data set record~~ designated by said designating unit; and

a display for displaying the first records, the second record, and the edited second record.

2. (*Currently Amended*) The musical performance data search system according to claim 1, further comprising a data input unit for inputting data externally, wherein when said data input unit inputs the first ~~data set record~~ and the second ~~data set record~~ relateding to the first ~~data set record~~.

3. (*Currently Amended*) The musical performance data search system according to claim 1, further comprising a data output unit for outputting data externally, wherein when said data output unit outputs the first ~~data set record~~ and the second ~~data set record~~ relateding to the first ~~data set record~~.

ATTORNEY DOCKET NO. YAMA:039

4. (*Currently Amended*) The musical performance data search system according to claim 1, further comprising an overwriting unit for reading and overwriting the second data set record externally ~~and overwriting the second data set by the read second data set~~, wherein the second data set record includes preset data stored in advance and user data created by a user, and said overwriting unit is adapted to overwrite the preset data.

5. (*Currently Amended*) A storage medium storing a program executable by a computer for making a computer execute ~~executing~~ a musical performance data search ~~process~~ for an automatic musical accompaniment apparatus, the program comprising instructions for:

designating a second data set record related to one of a plurality of first data sets, including records, which include performance data for automatic accompaniment of the automatic musical accompaniment apparatus, the second data set ~~being related~~ record relating to one of the first data sets ~~records~~, and including information for searching the first data set record relating to the second record;

editing and updating the second data set record, wherein the second record is overwritten with edited content; and

reading the first data set record related to the second data set record; and displaying the first records, the second record, and the edited second record.
